

## Start Your Own Boulevard Garden in Kitsilano!

The boulevard is the area between the street curb and the sidewalk that is typically planted with grass. Vancouver residents are encouraged to transform the boulevard adjacent to their home into well-designed and maintained gardens.

Boulevard gardens can create more beautiful, interesting and diverse streets, add character to neighbourhoods and increase feelings of community pride. They can also support environmental benefits such as increasing ecological diversity and providing bird, butterfly and pollinator habitats.

In addition, boulevard gardens can play an important role in local food production. Visit the Greenest City website at: <http://vancouver.ca/green-vancouver/a-bright-green-future.aspx> to learn more.

Full City of Vancouver Guidelines for boulevard gardening can be found at:  
<https://vancouver.ca/files/cov/boulevard-gardening-guidelines.pdf>

Creating a boulevard garden is a great way to get to know your neighbours and build community. Good Neighbour can help you get started by pairing you with a local volunteer who has created many boulevard gardens, including a streetside community herb garden that is shared with neighbourhood residents.
